VG Ethnic Flutes

NI Kontakt Sound Library, WAV

We uphold the philosophy of authentic sound and used Chinese bamboo flutes, Peruvian pan flute, Russian kalyuka, among other instruments, to create a unique, full of character VG Ethnic Flutes sample library.

Instead of familiar names, we called our woodwinds based on associative images—Desert, Breese, Jungle, Moonlight, Sakura—which will arise as soon as an instrument is played to inspire you to be creative.

You can compose a unique sound using samples of ethnic woodwinds and appreciate the intuitive single-click sound control from its attack to its release.

For instance, to add an accented attack, vibrato throughout the sound, noise of air passing through the flute, or "Wah" or "Flutter" tongue effects, click the corresponding button and control it with the Modulation Wheel. And, if you play an electronic wind instrument such as AKAI EWI, Roland Aerophone, or Yamaha, you can control all effects with your breath.

So, whether you're looking for the sound of a traditional orchestral flute or an exotic Chinese flute, the VG Ethnic Flutes are perfect for you.

● VG Ethnic Flutes NI KONTAKT Sound Library, wav and nki format.
● More than 330 unique samples
● WAV files can be used directly in your DAW, or any other sampler plugin
   for further editing
● Set up to work with breath controllers (TEControl), wind controllers
   (AKAI EWI, Roland Aerophone AE-10, AE-20, Pro AE-30, Yamaha WX, etc.)
   and MIDI keyboard controllers
● Up to 4 velocity layers per key
● Each note was individually sampled to achieve maximum realism
● Custom designed, unique GUI
● VG Ethnic Flutes requires the full retail version of Kontakt 5.6.8 or later.
   Kontakt Player is not supported
● Recorded sample quality: 24 bit / 48 kHz
● Expressive effects: Expression, Attack, Breath, Vibrato, Flutter, Wah
● Reverb, delay, stereo control to fit the instrument in every mix
● Best Balance of Natural Velocity Resolution and Data Size
● Library Size: 314 MB

Installation Notes
1. Uncompress VGEthnicFlutes_.zip using your favorite archiving utility.
2. Upload VG_EthnicFlutes_.nki instrument into Kontakt
   from VGEthnicFlutes_ folder – drag and drop,
   or double-click from Kontakt browser.
3. Activation is not necessary.

FLUTES
Desert, Breeze, Jungle,
Moonlight, Sakura
Choose a basic instrument.

CONTROL
Keyboard, Breath buttons change performance
modes: Playing on keyboard instrument / Playing
with breath or wind controller (TEControl, EWI,
Aerophone, Yamaha WX, etc.)
Set Control Change (CC) number in **CC# box** in
accordance to your breath or wind controller settings.
Normally breath controllers are set to send
MIDI CC2, CC11 or CC7 messages types.

TIMBRE
Dark, Normal, Bright
Make the tone darker or brighter using these buttons.

EFFECTS 1:

Reverb ON/OFF, Delay ON/OFF and Stereo ON/OFF
switch on/off corresponding effects.

Reverb Level
change the level of the Reverb effect.

Reverb Size
Adjusts the size of the simulated room.
This affects the duration of the reverb trail.

Delay Level
change the level of the Delay effect.

Delay Time
change the delay time..

Stereo spread
Collapses (counter-clockwise) or expands
(clockwise) your signal's stereo base.

EFFECTS 2:

Expression, Attack, Breath, Vibrato, Flutter, Wah ON/OFF
Switch on/off the corresponding effects.

This panel allows adding effects to your sustain samples via a fader or mod wheel for dynamic performances.

The following effects are available:
Expression
Attack (accented beginning of the sound)
Breath (noise of air passing through the instrument)
Vibrato
Flutter tongue
Wah

Set Control Change (CC) number in CC# box in accordance with your MIDI (Breath, Wind) controller settings.
